

# Company Overview

Built from a foundation of integrity and strong business ethics, PowerNet Global Communications (PNG) was established in 1992 by President & CEO Bernie Stevens.

Now operating as a \$100 million company and growing, PNG is a dynamic integrated telecom service provider offering leading-edge technologies and aggressive rates to its customers. PNG currently employs over 250 personnel in Cincinnati to support an agent and customer base of more than 300,000.

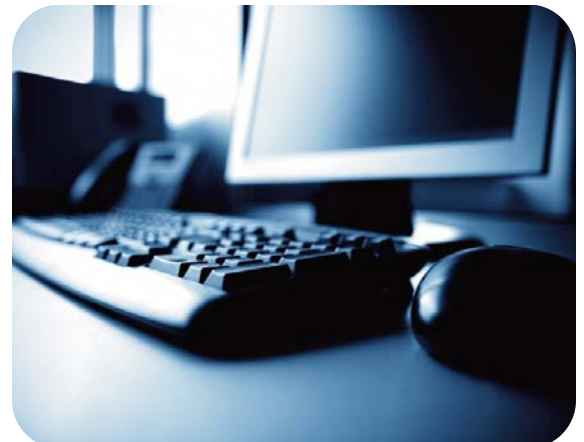

In recent years, PNG has grown to become one of the largest and fastest growing privately held companies in the greater Cincinnati area. The company has achieved many local awards including the Deloitte Cincinnati USA 100 Award and most recently, named one of the Largest Tri-State

By partnering with leading carriers, PNG is able to offer a complete suite of voice, data, and managed services that are sure to please you and your customers.

As a veteran of the telecom industry, PowerNet Global strives to be more than just a reseller whose only focus is on rates but rather, a truly supportive network of teams that deliver the highest quality products and services, top-notch support and assistance, and reliability, in addition to providing competitive pricing.

This commitment is based on the understanding that by offering the best service possible, agents and customers are able to focus on what matters most... **growing their business.**
