

This is the **third screen** of on-line PNG long distance service application.

The purpose of this screen is to make a selection of Intralata and Interlata. We suggest to choose **Both IntraLata and InterLata**.

Account: AMP9000000 **Name:** John Doe **Services:** 0

Please enter the phone numbers that you would like switched over to our PowerOne Long Distance Service.

Notes:

- Please use area codes along with your *Phone Number(s)* and *Bill-To Number(s)*.
- Your *Bill-To Number* below is your main telephone number.
- The area code for your *Phone Number(s)* and *Bill-To Number(s)* must be the same.
- Interlata toll calls are standard long distance phone calls outside your local region but still within the domestic United States. To place an interlata phone call you must dial 1 + area code + phone number. When signing up for PowerOne Long Distance you are able to choose whether you would like us to handle your IntraLata only, InterLata only, or both. When you choose InterLata, we will also carry your International calls.
- Intralata toll calls are phone calls within your local region that you must dial 1 + area code + phone number to reach. Intralata toll calls are phone calls that are too far to be considered local calls and not quite far enough to be considered standard long distance. When signing up for PowerOne Long Distance you are able to choose whether you would like us to handle your IntraLata only, InterLata only, or both.

Please indicate your preference in the *Jurisdiction* field.

Phone Number	Bill-To Number	Jurisdiction
<input type="text"/>	6304201111	Both IntraLata and InterLata 

Do not forget to enter your phone number
