### Choice

PowerNet Global utilizes carrier relationships and a nationwide network to offer your business a wide range of access methods and circuit speeds to meet your individual communications requirements.

### Support

Our Dedicated Sales and Support Team handle all pre-sale needs from price quotations to testing to circuit turn-up. They also will support your post-sale requirements from billing questions to move and change orders. Our Network Operations Center (NOC) ensures network performance and resolves trouble tickets so your mission-critical applications are always operating efficiently.
